Co-located with the Asset
Performance Management Summit

AUGUST 3-5, 2021

ORLANDO, FLORIDA

WALT DISNEY WORLD DOLPHIN RESORT

maximoworld.com

Produced by the names you trust.

CONNECTING AND RECONNECTING

For over 20 years, passionate IBM® Maximo® users gather at the Walt Disney World Dolphin Resort to connect with their community. MaximoWorld, A Reliabilityweb Event, brings together the user community, including technical, functional and strategic business level roles; IBM Maximo Partners; Reliabilityweb Asset Performance Marketplace Partners; industry book authors; and artificial intelligence (AI), Internet of Things (IoT) and digital twin specialists with a focus on reliability and asset management.

MaximoWorld is one of the most generous knowledge and experience sharing forums in the world, featuring some of the world's best-run organizations combined with leading-edge technology from IBM and other technology leaders.

Technology advances what we call a “Quantum Opportunity Set,” fueled by the unique combination of high-performance Cloud and Edge proving elastic “pay as you use” storage and processing, IoT, connected data environments and AI/ machine learning (ML).

Connecting and synchronizing two-way, evergreen data exchange with the asset or systems condition/performance with the workforce and their managers creates a superior decision-making opportunity, especially when guidance is provided through policy and strategy. Many of us are also working to smooth out the basic blocking and tackling of managing assets with IBM Maximo.

MaximoWorld is broad and deep enough to provide value from a “Maximo newbie” to an advanced “digital twin maker” or “AI champion.” Participants will have the opportunity to meet IBM Maximo experts and partners with proficiencies in the technology, strategies and processes that accelerate bottom-line business results. MaximoWorld offers a second focus on digital twins for asset performance to ensure current practices and use cases are shared.

MaximoWorld 2021 co-located with the Asset Performance Management Summit is produced by Reliabilityweb.com® and Uptime® Magazine, names you trust to bring you the best information available. Reliabilityweb.com® is 100% independent and the producer of MaximoWorld. Knowing how many choices there are for conferences and training events to choose from, the community response to an independent voice and source of solutions has been nothing short of phenomenal, and we are thrilled to bring MaximoWorld back in 2021!

HIGHLIGHTS

The APM Summit is designed to expand the functionality of current CMMS/EAM users who wish to expand their capability beyond work execution management (WEM) to full-blown reliability (REM) supported by condition monitoring (ACM) and asset management (AM).

PRE-CONFERENCE MONDAY, AUGUST 2ND

- Maximo User Group Meetings
- Reliability Leadership Consortium Meetings
- WIRAM Hackathon
- Meet and Greet Cocktail Reception

KEYNOTES AND RAP TALKS

Every day - 1 Keynote and 3 RAP Talks (innovative 18-minute “TED-like” presentations) presented by the industry’s top gurus and experts in the MaximoWorld community.

LEARNING SESSIONS

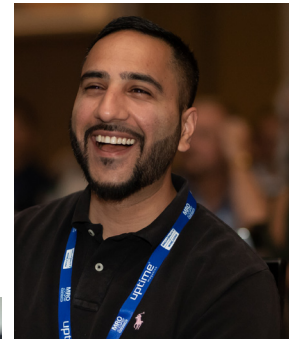

MaximoWorld learning sessions feature intensive innovation, emerging trends, winning ROI techniques, and new asset management and work management skills to enhance your performance.

IOT SUMMIT

The IoT Summit will deliver an educational track that includes a special focus on how IoT and AI, along with machine-assisted maintenance and remote monitoring, are transforming the way organizations manage assets.

MAXWORLD.AI FORUM

The MaxWorld.ai™ Forum is a companion educational event designed to explore the opportunities and challenges around the application of Artificial Intelligence (AI), Machine Learning (ML) and Deep Learning (DL) to advance reliability and asset management. Be sure to enhance your experience by visiting the MaxWorld.ai Pavilion in the Expo Hall!

WORKSHOPS AND CERTIFICATIONS

Both workshops are co-located with MaximoWorld and require separate registration. The workshop breaks and lunches coincide with the conference and you will be able to participate in all evening social events.

Exams are optional and require a separate registration and fee.

Certified Reliability Leader®

The Certified Reliability Leader® (CRL) workshop focuses on whole life asset reliability decisions and whole life value delivery through leadership. The system provides guidance and is a map of theory, to engage and empower every stakeholder in your organization as a Reliability Leader.

Certified Maintenance Manager™

This groundbreaking course will transition the way you think about asset management. You will leave this session with a clear understanding of how to align with operational expectations and attain the stability and control that is required to enable maintenance.

NETWORKING

MaxStock™

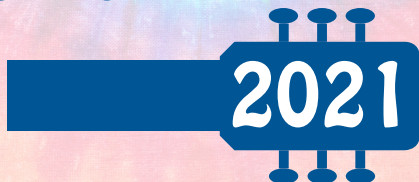

Music Festival and Party

« LIVE MUSIC « FOOD

Relax and unwind during 3 days of peace, love and MaximoWorld. Bring your favorite Woodstock costume and enjoy the music from the 60's...and more!

Before MaxStock....
